MANAGE THE ACCESS OF USERS

CHECK YOUR ACCOUNT DETAILS AND SETTINGS

The image shows a computer monitor displaying a user account settings page. The page is divided into three main sections: Credit Card Information, Package Information, and Settings. The Credit Card section has input fields for Expiry and Zip Code, a red 'CHANGE CREDIT CARD' button, and a 'Package Information' section with a red 'CHANGE PACKAGE' button. The Settings section includes a 'LANGUAGE' dropdown with 'English' selected, a 'CHANGE PASSWORD' section with fields for 'Old Password', 'New Password', and 'Repeat New Password', and a red 'CHANGE PASSWORD' button.

Now you will find the
aiconix-transcribe
application in your slack
workspace.

The screenshot shows a Slack workspace for 'aiconix.al'. The left sidebar contains a list of navigation items: Ungelesenes, Threads, Alle DMs, Erwähnungen & Reaktionen, Lesezeichen, Leute & Benutzergruppen, Apps, Mehr, Channels, Direktnachrichten, and a collapsed 'Apps' section. The 'aiconix-transcribe' app is highlighted in the 'Apps' section. The main content area displays the app's interface, which includes a 'Nachrichten' (Messages) tab and an 'Info' tab. The 'Info' tab is active, showing a 'Language Selection' section with a 'Heute' dropdown. Below this, there are several command snippets and their descriptions:
- `/aiconix-activate-matching-mode`: If you have an existing transcript you can upload it with the file and the aiconix transcribe app will match the file with the text and return the subtitles from your text.
- `/aiconix-activate-regular-mode`: Get regular transcript and subtitle
- `/aiconix-configure-srt`: i.e. 30 2 1.5 Maximum characters per line (30), Maximum number of lines (2), Minimum caption duration in seconds (1.5)
- `/aiconix-configure-srt reset`: Reset subtitle configuration to standard settings
- `/aiconix-help`: This page
- `/aiconix-language-set <language-code>`: Updates transcription language preferences.
- `/aiconix-languages`: List all supported languages for transcriptions.
- `/aiconix-status`: Check your languages and utilization status.
The 'Formats' section states: 'The aiconix transcribe app supports the following file formats: Audio-File: .mp3 .wav .flac .aiff .au .ogg .aac Video-File: .mp4 .m4a .mov webm .mpg'. The 'File-Size and Duration' section states: 'Duration: up to 2 hours File-Size (for both: video and audio): up to 1GB'. The 'Hints' section lists:
- To get better transcription results do not convert or resize or resample the file. Always use the original file/quality.
- You are able to upload and process multiple files at the same time. Try it out!
- To get better transcription results try to avoid background noise. Also try to create a clear and echo/resound/reverberation free audio track.
The 'Support' section states: 'For any additional support, please contact slackbot@aiconix.cloud'. At the bottom, there is a text input field labeled 'Nachricht an aiconix-transcribe' and a rich text editor toolbar.

USE THE „ / “ COMMANDS TO CONFIGURE THE APP

<  **aiconix-transcribe**

`/aiconix-activate-matching-mode`
Activate matching transcription mode
